

Parents,

Have you heard “What Does the Fox Say?” in Chinese yet? Ask your student. That song helped us learn twelve animals this grading period. Students are continuing to work hard on new vocabulary while reviewing what was previously introduced.

Students have also been introduced to some of the colors and how to use them to describe animals. They were even able to respond to six word sentences!

If you would like to follow what we are learning, feel free to visit <http://specialareasathite.weebly.com/> and click on the Chinese tab.

Xiè xie! 谢谢  
(Thank you!)

Mrs. Smith, Chinese Instructor
